CHEMISTRY THAT DRIVES COMMERCE™
**What is BlueDEF™?**

**BlueDEF™ Diesel Exhaust Fluid**

**America’s #1 Brand of Diesel Exhaust Fluid**

**EPA 2010** is the final phase of the Environmental Protection Agency’s (EPA) plan to assure that diesel engines run cleaner. In fact, EPA 2010 standards require that NOx levels from new trucks be reduced to almost zero.

The leading technology to meet EPA 2010 is Selective Catalytic Reduction (SCR) technology - an emissions reduction system requiring the use of Diesel Exhaust Fluid (DEF).

**What is NOx?** Oxides of Nitrogen (NOx) are exhaust elements that contribute to acid rain, smog, and greenhouse gas levels.

**Selective Catalytic Reduction (SCR) Technology**

Selective Catalytic Reduction (SCR) Technology reduces NOx emissions to near zero levels, while at the same time delivering improved fuel economy and reliability. SCR technology does not change the design or operation of the basic engine.

SCR works by injecting BlueDEF Diesel Exhaust Fluid into the exhaust stream only as required. BlueDEF works with the heat of the exhaust and the catalyst to convert NOx into nitrogen and water vapor - two harmless and natural components of the air we breathe.

DEF is stored in its own dedicated tank. The DEF tank fill opening is designed to accommodate a DEF fill nozzle to ensure only DEF is put into the tank.

**What is BlueDEF?** BlueDEF is a nontoxic solution of 67.5% purified water and 32.5% ultra pure automotive grade urea. BlueDEF is not a fuel or fuel additive.

BlueDEF meets ISO Standards 22241 and is an American Petroleum Institute (API) certified diesel exhaust fluid. These are the highest quality and safety standards in place, which ensures optimum SCR performance.
**GROWTH**

Based on integer forecasts, on-highway diesel exhaust fluid consumption is expected to grow to over 2.2 billion gallons annually by 2025. PEAK Commercial & Industrial is prepared to meet this demand with multiple distribution points across the country.

**BEING PREPARED FOR THIS GROWTH IS VITAL TO KEEPING EQUIPMENT MOVING**

**DEF INDUSTRY FORECAST**

Based on integer forecasts, on-highway diesel exhaust fluid consumption is expected to grow to over 2.2 billion gallons annually by 2025. PEAK Commercial & Industrial is prepared to meet this demand with multiple distribution points across the country.

**GROWTH**

Based on integer forecasts, on-highway diesel exhaust fluid consumption is expected to grow to over 2.2 billion gallons annually by 2025. PEAK Commercial & Industrial is prepared to meet this demand with multiple distribution points across the country.

**BEING PREPARED FOR THIS GROWTH IS VITAL TO KEEPING EQUIPMENT MOVING**

**DEF Usage**

The type of storage and dispensing equipment a customer will need will depend on how many vehicles are in their fleet. Use the simple chart below to determine the ideal system for each customer.

<table>
<thead>
<tr>
<th>Recommended Storage/Dispensing System Size</th>
<th>Drum System</th>
<th>Tote System</th>
<th>Bulk System</th>
</tr>
</thead>
<tbody>
<tr>
<td># Of SCR Vehicles</td>
<td>1 – 5</td>
<td>8 – 13</td>

<td>3,840 – 6,400</td>
<td>12,800 – 176,800+</td>
</tr>
</tbody>
</table>

**NOTE:** *Above calculations based at 3% usage at average fuel economy of 6 miles per gallon. Container volume/mileage usage may vary depending on vehicle dosage rate.

**Delivery**

ISO standard 22241 was also created to provide direction for the handling, transportation and storage of diesel exhaust fluid. PEAK Commercial & Industrial’s comprehensive and controlled distribution network ensures that the BlueDEF you order is delivered securely, on time, wherever you need it.

**AS PURE AS THE MOMENT IT WAS MANUFACTURED.**
PURITY IS OUR PRIORITY

WHEN IT COMES TO SCR ENGINES, MAINTAINING DIESEL EXHAUST FLUID INTEGRITY IS VITAL TO EFFICIENT LONG-TERM OPERATION. PEAK COMMERCIAL & INDUSTRIAL’S BlueDEF BRAND MEETS BOTH ISO AND API REQUIREMENTS AND IS DELIVERED THROUGH A CONTROLLED, END-TO-END DISTRIBUTION SYSTEM. ALL AS PURE AS THE MOMENT IT WAS MANUFACTURED.

CHEMISTRY THAT DRIVES COMMERCE™
**AMERICA’S #1 BRAND OF DIESEL EXHAUST FLUID**

Composed of 67.5% deionized water and 32.5% automotive grade urea, BlueDEF meets the strict ISO 22241 standards for purity and composition and is certified by the American Petroleum Institute. When injected into the diesel exhaust stream through an SCR (selective catalytic reduction) system, BlueDEF helps convert harmful NOx emissions into nitrogen and water vapor – two harmless and naturally occurring components of the air we breathe. This innovative solution is not only better for the planet, it can also help improve fuel economy by up to 5%.
LOW VOLUME BlueDEF EQUIPMENT

ALL BlueDEF STORAGE AND DISPENSING SYSTEMS ARE SPECIFICALLY DESIGNED AND ENGINEERED FOR PUMPING DIESEL EXHAUST FLUID. EACH SYSTEM PROVIDES THE STRONG DELIVERY PRESSURE NEEDED TO EFFECTIVELY AND EFFICIENTLY DISPENSE BlueDEF.
1/3 HP DIAPHRAGM PUMP

All components of this system are constructed with materials designed specifically for dispensing diesel exhaust fluid.

PUMP FEATURES
+ 1/3 HP diaphragm electric pump (115V 60Hz)
+ Stainless steel motor shaft, polypropylene housing and reliable EPDM diaphragm
+ Self priming
+ Flow rate: 7-9 GPM
+ Operating pressure 1.6 bar (25 psi)

SYSTEM CONTAINS
+ 1/3 HP diaphragm electric pump
+ 1 stainless steel or plastic nozzle
+ Nozzle swivel
+ Suction hose
+ Universal steel pump bracket mounts on drums and totes
+ Hose clamps

COMPATIBLE WITH
DRUMS & TOTES

REQUIRES
TOTE DISPENSER COUPLER

ACCESSORIES
FLOW METER
INSULATED HEAT BLANKET

PORTABLE 12V DIAPHRAGM PUMP

All components of this system are constructed with materials designed specifically for dispensing diesel exhaust fluid.

**PUMP FEATURES**

+ 12V diaphragm electric pump (12V - 10 amp)
+ Stainless steel motor shaft, propylene housing and reliable EPDM diaphragm
+ Self priming
+ Flow rate: 6-8 GPM
+ Operating pressure 1.6 bar (25 psi)

**SYSTEM CONTAINS**

+ 12 Volt diaphragm pump
+ Stainless steel automatic shut-off nozzle
+ Nozzle swivel
+ 12’ power cord
+ Hose clamps
+ Carbon steel pump caddy
+ Suction hose clamps

**COMPATIBLE WITH**

DRUMS & TOTES

LOW VOLUME BlueDEF™ EQUIPMENT

3/4 HP CENTRIFUGAL PUMP

All components of this system are constructed with materials designed specifically for dispensing diesel exhaust fluid.

PUMP FEATURES
+ 3/4 HP Electric Centrifugal Pump (115V 60Hz)
+ Stainless steel motor shaft and housing
+ Self priming (must prime on initial use)
+ Flow rate: 7-10 GPM
+ High operating pressure 8 bar max
+ SureStop™ pressure switch

COMPATIBLE WITH
TOTES
REQUIRES
BEDFPTDC TOTE DISPENSER COUPLER
ACCESSORIES
FLOW METER
INSULATED HEAT BLANKET

SYSTEM CONTAINS
+ 3/4 HP diaphragm electric pump
+ Stainless steel nozzle
+ Nozzle swivel
+ Suction hose
+ Stainless steel tote bracket
+ Hose clamps

STAINLESS STEEL NOZZLE
10’ OR 20’ HOSE

14
PISTON HAND PUMP

The BlueDEF Piston Hand Pump dispensing system makes quick work of pumping diesel exhaust fluid—thanks to a heavy-duty, meticulously crafted piston hand pump.

SYSTEM CONTAINS
+ 2” bung adapter
+ Expandable down tube
+ Manual nozzle with lock pin
+ 10’ dispense hose
+ Hose clamps

COMPATIBLE WITH
DRUMS

PART #
DEFR12068010
The Mobile DEF dispensing cart combines a 1/3 HP diaphragm pump with a heavy-duty steel, 3-wheel drum cart. Swivel locking front wheel holds cart steady on flat and slanted surfaces.

Available in 115V and 12V options.

**SYSTEM Contains**
- 1/3 HP diaphragm or 12V pump
- Stainless steel automatic shut-off nozzle
- 4’ suction hose
- 10’ or 20’ dispense hose
- 3 wheel drum cart with locking front wheel

**COMPATIBLE WITH**
- DRUMS

**REQUIRES**
- DEF756-0088 DRUM DISPENSER COUPLER

**ACCESSORIES**
- FLOW METER
MOBILE TRUCK TANK

The DEF Truck Tank is a fully-enclosed mobile dispensing system. This unit is highly-secure and is sized perfectly for pick-up truck beds.

Available in 110 and 155 gallon sizes.

PUMP FEATURES
+ 12V diaphragm electric pump (12V - 10 amp)
+ Stainless steel motor shaft, propylene housing and reliable EPDM diaphragm
+ Self Priming
+ Flow rate: 6-8 GPM
+ Operating pressure 1.6 bar (25 psi)

SYSTEM CONTAINS
+ 12V diaphragm pump
+ Portable dispensing unit
+ 20’ dispense hose
+ Forklift recesses
+ Stainless steel automatic shut-off nozzle
+ Integrated carry handles
+ Molded recesses for tie-down during transport

COMPATIBLE WITH
FLOW METER
HIGH VOLUME BlueDEF EQUIPMENT

BlueDEF STORAGE TANKS AND DISPENSING SYSTEMS OFFER SEVERAL TANK SIZES, STATE-OF-THE-ART FILTRATION UNITS AND ALL OTHER NECESSARY DEF COMPATIBLE COMPONENTS. ALL DISPENSING SYSTEMS COME STANDARD WITH TANK FITTINGS AND VENTING COMPONENTS NEEDED TO MAINTAIN YOUR DEF PURITY.
MINI BULK SYSTEM

The Mini Bulk System showcases UV resistant, stainless steel outer panels and roof that are insulated for hot to cold climates. This system is pre-wired for easy installation and has the ability to hold and expand in 500 gallon increments up to 2,000 gallons. Features an automated fill-port valve (to prevent overfilling), dry-break adapter fill port, high-level indicator and weather-tight control panel mounted on front wall. The Mini Bulk System is designed to fit on a fuel island.

Includes lockable fill port door and a 1/2 HP submersible DEF pump. Also includes forklift pockets for quick relocation.

SYSTEM CONTAINS
+ 120V design standard  
+ Installation anchor kit  
+ Lockable fill-port  
+ Polished stainless steel outer panels and roof  
+ High density polyethylene tank(s) with no bottom or side-wall penetrations  
+ Additional bulkhead ports for level monitoring or other instrumentation  
+ 1/2 HP submersible DEF pump(s)

OPTIONS
+ Heat assembly  
+ 230V option  
+ Digital fluid level monitor

*Ability to expand to 2,000 gallons.
DEF FLEET DISPENSER

The DEF Fleet Dispenser is specifically designed and engineered to fit directly onto a fuel island. This Fleet Dispenser seamlessly connects to totes, BlueDEF mini bulk tanks, as well as above or below ground tanks—providing optimized dispensing efficiency.

The DEF Fleet Dispenser features a powder coated carbon steel cabinet, a foil face insulation lining and a stainless steel door. It’s designed with a slam latch and locking handle user compartment. This fleet dispenser includes a hose reel with a 25’ DEF hose, ball stop and a 4-way roller.

SYSTEM CONTAINS

- Stainless steel automatic nozzle with swivel
- In line flow meter
- Filter housing & cartridge
- Nozzle dock
- Hose clamps
- 25’ hose reel

OPTIONS

- Hardware kit for installation including anchor kit
- Pump assembly
- Fleet management system
- Pulse output & heat available
The Indoor Storage Tank is constructed of DEF compatible high-density polyethylene (HDPE). This single wall constructed unit comes complete with all fittings and venting components, making installation easy.

**SYSTEM CONTAINS**

- DEF fitting package
- 2” stainless steel threaded bulk head fitting in the sidewall tank - fill side
- 1” stainless steel threaded bulk head fitting in the sidewall tank - dispense side
- 2” polypropylene threaded top mount fittings (2)
- 1” x 12” siphon tube
- 2” stainless steel inlet for fill port with cap
- Stainless steel ball valves and nipples (2)
- 1” x 3/4” stainless steel, barbed nipple and ball valve
- DEF pipe sealant
- Venting package
- Duplex vent package - Rate for 225 gpm
- Duplex vent filtration sock

**OPTIONS**

- Horizontal tanks available

**INDOOR DISPENSING SYSTEM**

This system provides all the DEF compatible components to maintain the purity of your diesel exhaust fluid. Comes complete with all tank fittings and venting components making installation easy.

**SYSTEM CONTAINS**

+ 3/4 HP centrifugal electric pump
+ 1 stainless steel or plastic nozzle
+ Nozzle swivel
+ Suction hose
+ Universal steel pump bracket mounts on totes and walls
+ Hose clamps
+ Requires additional coupler to connect to closed system valve on drums and totes

**OPTIONS**

+ Industrial grade powder coated carbon steel
+ DEF hose reel with 50' DEF hose, ball stop, & 4 way roller
+ Auto On/Off feature
+ DEF stainless steel automatic nozzle
+ Nozzle dock
+ Pulse output & heat available

**OUTDOOR DISPENSING SYSTEM FOR INDOOR TANK**

This system provides all the DEF compatible components to maintain the purity of your diesel exhaust fluid. Comes complete with all tank fittings and venting components making installation easy.

**SYSTEM CONTAINS**

+ In-line flow meter with totalizer
+ Filter hosing and cartridge
+ Insulation lining
+ Anchor kit

**OPTIONS**

+ Pulse output & heat available
OUTDOOR STORAGE TANK

The Outdoor Storage Tank is constructed of DEF compatible high-density polyethylene (HDPE). This single wall constructed unit comes complete with all fittings and venting components, making installation easy.

SYSTEM CONTAINS

+ DEF fitting package
+ 2" insulation coating
+ DEF heat trace assembly
+ 2" stainless steel threaded bulk head fitting in the sidewall tank - fill side
+ 1" stainless steel threaded bulk head fitting in the sidewall tank - dispense side
+ 2" polypropylene threaded top mount fittings (2)
+ 1" x 12" siphon tube
+ 2" stainless steel inlet for fill port with cap
+ Stainless steel ball valves and nipples (2)
+ 1" x 3/4" stainless steel, barbed nipple and ball valve
+ DEF pipe sealant
+ Venting package
+ Duplex vent package - Rate for 225 gpm
+ Duplex vent filtration sock

OUTDOOR FLEET DISPENSING SYSTEM

The DEF Outdoor Dispensing System is a complete dispensing system and filtration unit, providing all the DEF compatible components to maintain the purity of your diesel exhaust fluid. All tank fittings and venting components are pre-installed.

SYSTEM CONTAINS

+ Industrial grade powder coated carbon steel
+ DEF hose reel with 25' DEF hose, ball stop, & 4-way roller
+ Auto On/Off feature
+ DEF stainless steel automatic nozzle
+ Nozzle dock

OPTIONS

+ Pulse output & heat available
+ In-line flow meter with totalizer
+ Filter hosing and cartridge
+ Insulation lining
+ Anchor kit

OUTDOOR RETAIL WEIGHTS & MEASURES DISPENSING SYSTEM

The DEF Outdoor Dispensing System is a complete dispensing system and filtration unit, providing all the DEF compatible components to maintain the purity of your diesel exhaust fluid. All tank fittings and venting components are pre-installed. Motor approved for retail sales.

SYSTEM CONTAINS

+ Weights & measures approved TES-682 SS meter
+ Retail software electronics
+ Pulse output
+ 1-Micron filter assembly
+ DEF hose reel with 18' DEF hose
+ Insulated & heated
BlueDEF EQUIPMENT ACCESSORIES

FROM STAINLESS STEEL TO AUTOMATIC SHUT-OFF NOZZLES, HOSES AND FLOW METERS, BlueDEF HAS A VAST ARRAY OF METICULOUSLY-ENGINEERED ACCESSORIES—ALL DESIGNED TO MAXIMIZE THE EFFICIENCY OF DISPENSING DIESEL EXHAUST FLUID. IN ADDITION, TO ENSURE ABSOLUTE COMPATIBILITY WITH ALL NECESSARY BlueDEF COMPONENTS, EACH BlueDEF ACCESSORY HAS BEEN BUILT WITH ISO 22241 COMPATIBLE MATERIALS.
The Stainless Steel Drum Coupler easily connects to drum container pump hoses. Constructed of heavy-duty stainless steel, it features a self-venting design and EPDM seal that offers leak-resistant performance. Designed to fit 3-pin drum valve system.

The Stainless Steel Tote Coupler is built with ISO 22241 compatible materials, including heavy-duty stainless steel. Specifically designed for use with stainless steel valve or poly 4-pin valve for BlueDEF Totes (DEF275S & DEF330S).

The Poly Tote Coupler is constructed from polyethylene and glass filled nylon, this coupler has been specifically designed for use with stainless steel valve or poly 4-pin valve for BlueDEF Totes (DEF275S & DEF330S). Built with ISO 22241 compatible materials.

Built from heavy-duty stainless steel, the rugged design of the 19mm BlueDEF Automatic Shut-off dispensing nozzle offers long life and reliable service. Features a stainless steel spout and main stem, polymer encased handle and stainless steel hose barb.
**FLOW METER**

The Flow Meter is equipped with a turbine measuring system, totalizer, reinforced polyamide body, flow indication, and threaded and aligned input/output. Measures gallons or liters, and runs on two AAA batteries.

**INSULATED HEAT BLANKET**

Meticulously-engineered, the Insulated Blanket features uniform, patented heat spreading technology which seamlessly protects DEF fluid and pump assembly. Its cutting-edge design not only allows for easy access to the dispensing system, but also helps prevents freezing, protecting down to -34°C (-30°F). Works on both poly and metal totes.

**HOSE REEL**

The Hose Reel is engineered with an open design to allow for easy maintenance, spring rewind and easily stores hoses up—protecting the hose and significantly extending its life. Available in 25’, 50’, 75’, and 100’.
WHEN WE'RE NOT BUSY SELLING AMERICA'S #1 BRAND OF DIESEL EXHAUST FLUID, WE'RE KICKING BUTT FROM COAST TO COAST WITH TEAM PEAK.

TEAM PEAK

CLINT BOWYER

MICHAEL WALTRIP

PEAK is proud to partner with Michael Waltrip Racing and champion caliber driver Clint Bowyer as primary sponsor for select NASCAR Sprint Cup races. Being involved in America's top form of motorsports has been a part of who we are for over 3 decades. That we're involved with such a top team, makes our time at the track an experience no gearhead should miss.

The BlueDEF Velocity Tour offers established and emerging bull riding talent more opportunities to acquire the valuable points needed to qualify for the elite PBR Built Ford Tough Series (BFTS) and ultimately the PBR World Finals. It will also allow fans in cities not currently serviced by the BFTS to experience the spectacle of the PBR.

Scan the code to the right for a list of event dates and locations.

Super late model race cars built to the cutting edge of technology. The in-your-face excitement of these dirt late model race cars is second to none in motorsports.
John Force may have three decades of racing and 16 NHRA championships under his belt, but he shows no signs of slowing down. Why should he? He still lives for that 4-second rush. John says putting on his fire suit has always made him feel “like Superman.” Having him step up with Team PEAK in 2015 makes us feel the same way.
